

BusinessH₂O Delegation to Israel September 12-14, 2017

The U.S. Chamber of Commerce is leading an executive business mission to Israel from September 12-14, 2017. This mission is geared for companies interested in developing partnerships and projects with Israel in the water sector.

Mission Highlights:

- Visits to water technology incubators, research labs, and leading companies.
- Exclusive meetings with officials from the Government of Israel and top water experts.
- VIP participation in the Water Technology & Environmental Control Conference (WATEC). WATEC is Israel's bi-annual water summit that brings together thousands of companies, researchers, investors, academics, and water policy experts to discuss opportunities in the global water arena.
- Customized one-on-one meetings with potential partners.

Space is limited. For more information or to apply, contact Bahar D. Sahajwalla at bdave@uschamber.com or call 202-463-5875.

U.S.–ISRAEL BUSINESS INITIATIVE

U.S. CHAMBER OF COMMERCE

Water Working Group

The objective of the working group is to promote bilateral cooperation between the U.S. and Israel on innovation in public policy and technology.

Objectives:

- Raise awareness in the business community about the need for collective action on water sustainability and share best practices/technologies from Israel
- Build stronger U.S.-Israel water networks by connecting companies, researchers, technologists, and innovators
- Advocate for stronger U.S.-Israel link in water infrastructure, agriculture, and scientific programs
- Advocate for greater public funding for cutting-edge water research and R&D

Projects:

- **Produce White Paper with Summit's takeaways for President-elect**
We will submit a paper to the presidential transition team with key takeaways from the BusinessH₂O Summit and best practices from Israel. This will include the business community's support to raise the national importance of water and bring leaders in the private sector and government together to discuss a joint approach to build a sustainable water future.
- **2017 BusinessH₂O mission to Israel**
In conjunction with Israel's Water Technology & Environmental Control Conference (WATEC) in September 2017, the Chamber will organize a group of business leaders to visit Israel to meet with the leading companies, policymakers, and research institutions working on water issues in Israel.
- **BusinessH₂O Summit/Regional Workshops in 2017**
The Chamber, in consultation with its partners, is assessing support for a second water summit (either in 2017 or 2018) and promoting regional forums/workshops on corporate water stewardship and U.S.-Israel water collaboration in select cities and states around the country.
